Dear Resident

RE: Update on Seaward Village upgrade program

As you are aware, Defence Housing Australia (DHA) and Department of Defence (Defence) presented to the Parliamentary Standing Committee on Public Works (PWC) in early February regarding the proposed upgrade of Seaward Village. This was then forwarded to Federal Parliament for approval.

On Wednesday 14 June the Parliament of Australia approved the Seaward Village Upgrade Project.

DHA and Defence representatives are now working on the tenders for the upgrade works to be prepared for release to the select Perth Builder Panel, specifically established for the project. DHA expects that works will commence at Seaward Village in August 2017.

DHA and Defence will be conducting information sessions for residents on the project in the week commencing 3 July 2017. A further letter will be sent to you to advise of the session date and times. This is an opportunity to update residents on the project, outline the expected timeframes, and answer any queries you may have.

If you have any concerns about your current housing arrangements please contact us on 139 342, or seawardvillage@dha.gov.au

Regards

Mark Turtle
Regional Director – WA
Defence Housing Australia
