

Dear Resident

Seaward Village upgrade

Following a review into the future of housing at Seaward Village, Defence Housing Australia (DHA) will undertake a major upgrade program at Seaward Village in Swanbourne WA. This program will involve all 153 properties in the village and take several years to complete.

DHA has commenced planning work for this program in conjunction with the Department of Defence. We are keen to ensure that residents are consulted throughout the program. The first step in this process will be an information session to be held in June 2016. Details of this session will be delivered by direct mail in the lead up to the event.

In the meantime, a webpage has been established on the DHA website where information will be posted as soon as there are updates available.

This page can be directly accessed using the following address:

<https://www.dha.gov.au/seaward-village>

An email address is also available for enquiries at seawardvillage@dha.gov.au

We look forward to sharing more when the information session is held in June.

Regards

Mark Turtle
WA Regional Manager
